

Set-Up Specifications

Specifications:

- Trailer Dimensions 20' x 8', including trailer tongue
- Drive-through space required
- Potable water faucet preferred
- Electrical hookups preferred (2-50 amp circuits)
- Free-standing generator power available

Set-up needs may vary, according to the length and expected customer volume of the event. The Espresso Escape trailer is equipped with sufficient water and power to accommodate a four-hour event without requiring additional services.

If electrical power is not available, a gasoline surcharge may apply for use of the on-board generators.
